

Golden Leaves Funeral Plans Special Service Provisions

Burials

Golden Leaves is proud of the range of burial services we provide as part of a Pre-paid Funeral Plan. The prices listed on the Details & Costs form includes a contribution for disbursements toward burials. Should this contribution not be sufficient for your particular plan your funeral director or Golden Leaves will advise you of the difference in cost and this can be added to your plan. The cost of graves and their availability, vary enormously from one part of the country to another, so it is impossible to create a standard tariff for burial.

We are pleased as well as able to make such provisions as part of your Funeral Plan with Golden Leaves. Such arrangements need to be made on an individual basis, in consultation with your local representative or with Golden Leaves directly on **0800 85 44 48**.

Let us know your requirements and we will discuss and secure them with your chosen Funeral Director. We will secure the grave site and the cost so that we can price your Plan appropriately.

Repatriation

Golden Leaves has developed a unique experience that enables us to provide the technical advice and expertise needed to repatriate the deceased to the chosen country of their burial or cremation. This is usually the family's country of birth. Special skills are required to prepare the deceased for transportation, as well as the documentation to satisfy international air transport law. Local rules and obligations as well as religious observances are planned and adhered to. Additional funeral arrangements can also be planned for the destination country.

The Golden Plan has been specially created to deliver repatriation needs. The Plan includes:

THE GOLDEN PLAN
